

Conduct Your Own

MICRO CORPORATE DIAGNOSTIC

Is Your Organization Safe from Risks
that Could Cost You Everything?

IT'S DIFFICULT TO SEE THE REAL ISSUES WITHIN YOUR OWN WALLS

We all wear blinders in our own organizations, which makes doing our own Corporate Diagnostic only marginally valuable at best. At Proverus, our consultants will examine your company from the outside in, and find issues that are too difficult to find internally.

CONDUCT YOUR OWN MICRO CORPORATE DIAGNOSTIC & FIND YOUR RISK SCORE

We are providing this Micro Corporate Diagnostic checklist that utilizes our CLIFFS Method in order to help you analyze your risks and uncover potential issues within your organization. After filling out the checklist, use the rating system to score your company in the six most critical areas of risk, then call us for a full Corporate Diagnostic.

HOW TO USE THE CHECKLIST

For each critical area, rate your company on a scale of 1-10, with 1 being the worst and 10 being the best. Once you have completed each section, tally your score and find your results.

CYBER VULNERABILITY

Cyber crimes are changing by the day, making cyber vulnerability one of the largest risk factors for most businesses. Don't be caught by one of the latest schemes.

Rate 1-10

- _____ Process to confirm software and security updates is up-to-date on all devices
- _____ Strong and comprehensive technology use policy
- _____ Use of encryption, multifactor authentication and best practices
- _____ Location, frequency and number of layers of data backup

LEADERSHIP CONTINUITY & CULTURAL SYNERGY

Leadership and culture impact your business and employee retention in ways you often can't see. In our tight labor market, you can't afford to get it wrong.

Rate 1-10

- _____ Clearly stated vision, mission and values
- _____ Effective Communication including crucial conversations
- _____ Understanding personality types and matching to positions
- _____ Intentional culture

INSURANCE & RISK MITIGATION

Risk mitigation is more than insurance, and just having an insurance policy isn't enough - it's the policy language that counts.

Rate 1-10

- _____ Your understanding of coverage form and policy language vs. just price
- _____ The comprehensiveness of your overall risk management strategy
- _____ Risk management techniques other than insurance
- _____ Compliance with terms and conditions of existing insurance

F

FINANCIAL STABILITY

Your financial team has a lot on their plate and is great at giving you high-level reports. However, you'll be shocked what an outside perspective can reveal for lost profitability and inefficient spending.

Rate 1-10

- Understanding of trend analysis
- Confidence there are no areas of leaking cash
- Access to cash in tight market
- Percent of revenue per client

F

FACILITY – CATASTROPHE & INJURY

When disaster strikes, are you prepared? With all the instability in society today, catastrophic events are more common than ever. Don't be left without a plan.

Rate 1-10

- Disaster recovery plan
- Active shooter preparedness
- General condition and maintenance plan
- Replacement cost valuation

S

SAFETY & SECURITY

Ensuring workplace safety is your responsibility. Whether it's protestors, an active shooter, or just keeping your employees safe, do you have the right plan?

Rate 1-10

- Overall workplace safety program
- Overall workplace violence procedures
- Use of personal protection equipment
- Access controls
